Trinity Transport, Inc. Earns High Credit Rating

On December 29, 2007, Trinity earned the Dun & Bradstreet covenant I-1 Financial Risk Assessment Level. This financial distinction indicates Trinity is now one of the first privately held companies that does not release corporate financial reporting to achieve this milestone.

Trinity petitioned D&B, who already recorded Trinity's repayment practices through their specific Dun & Bradstreet Transportation Industry Credit Reporting system, with sufficient evidence to prove our credit standing deserved this I-1 classification. This gives shippers a value added edge when using Trinity's services as a third party logistics provider. Trinity's strong financial health and corporate integrity will serve to reinforce partnerships with both motor carriers and customers. Trinity's relationships with their carriers help ensure on time delivery records to meet forward pricing commitments of its customers.

About Trinity Transport, Inc.

Founded in 1979, Trinity is an award winning third party logistics provider. The corporation is made up of 45 offices across the United States and Canada, and is consistently ranked in the Top 20 of third party logistics providers nationwide. Trinity provides logistics solutions including but not limited to brokerage of truckload and less-than-truckload shipments, transportation management software (www.ttishipdirect.com), international transportation services, and technology solutions to its customers. Trinity is known for its status as the top ranking on The News Journal's "Best in Business" in the Medium Sized Category for 2007 among other awards.
